

Scholarships for refugees at Pavia University

Five scholarships to allow young refugees attend degree courses in Pavia University, thanks to a project supported by Bracco Foundation.

Five scholarships to allow young refugees attend degree courses in Pavia University, thanks to a project offering candidates with humanitarian protection, bureaucratic simplification, free enrollment in degree programs and, thanks to the network of the colleges in the City of Pavia, board, lodging and access to libraries.

“Sheltering talents”, begun in 2015 at Pavia University, is supported by Bracco Foundation, Edisu and the Colleges of merit. The important aspect of the initiative is that refugees are considered as human capital, a source of competences and enrichment for the country.
